- Quick learning ability
- Creativity in problem-solving
- Sports enthusias

About Me

I am a 20-year-old Computer Engineering student with a strong passion for technology and problem-solving. My studies have provided me with a solid foundation in programming, systems architecture, and data analysis, allowing me to approach technical challenges with confidence. I am quick-thinking and highly resourceful, always ready to find practical solutions to complex problems. Currently, I am seeking an opportunity to apply my skills in programming and software development and to continue growing professionally in the tech field.

I thrive in team environments, enjoying the opportunity to collaborate, share ideas, and work towards shared goals. My experience in group projects has strengthened my communication and organizational skills, helping me perform well under pressure. Driven by a commitment to continuous improvement, I am eager to expand my skills and knowledge to stay on the cutting edge of the industry.
